# E-mail

المرحلة الثانية

المحاضرة الثالثة و الرابعة : الأيميل

## مادة تطبيقات الحاسبات

## The Advantage of Email

- Fast – Messages can be sent anywhere around the world in an instant
- Cheap – Transmission usually costs nothing ,very little
- Simple – Easy to use , after initial setup
- Efficient – Sending to a group can be done in one step
- Versatile – Pictures ,video ,Power-points or other files can be sent too

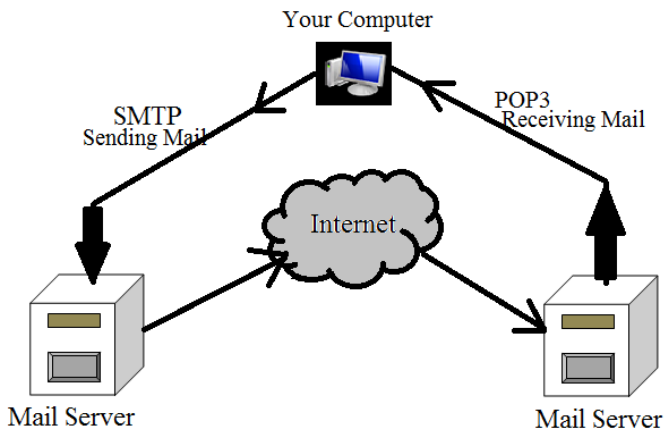
## Email Spam Defined

- Email spam is any email that meets the following three criteria .
  - Anonymity :The address and identity of the sender are concealed
  - Mass Mailing : The email is sent to large groups of people
  - Unsolicited: The email is not requested by the recipients

## How Email Work?

- SMTP means "Simple Mail Transport Protocol". SMTP is an outgoing mail server protocol that is used to transfer email messages between computers.
- POP3 means "Post Office Protocol version 3".POP3 makes it possible to download a message sent by any SMTP server.

# SMTP & POP3



# Create New Email Account in Yahoo

1. Open any browser and then write www.yahoo.com in address bar .
2. Select the option for the new e-mail service( yahoo mail ) .
3. Show us the interface to open and create new mail. Then select “create new account” .
4. We register all our information in the information form for the new user and then click on “create account” .
5. After completing the email successfully you can choose “get started” to open email .
